

tbd::topo::Location

```
classDiagram
    class tbd_topo_Cell["tbd::topo::Cell"]
    class tbd_topo_Location["tbd::topo::Location"]
    tbd_topo_Cell --|> tbd_topo_Location
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'tbd::topo::Cell'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'tbd::topo::Location'. This indicates that 'tbd::topo::Cell' inherits from 'tbd::topo::Location'.
